PROFESSIONAL SUMMARY

Computer Science Engineering student (B.Tech, Class of 2028) with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and software development in Python, Java, and JavaScript. Experienced in designing, debugging, and shipping Python/Flask REST APIs and AI-powered applications, using Git and GitHub, CI/CD, and Agile practices. Curious about how systems work internally, motivated to learn quickly, and comfortable collaborating with mentors and cross-functional teams. Seeking the Software Engineering Intern role at Red Hat.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++, C, SQL
Software Engineering: Data Structures & Algorithms, Object-Oriented Programming, REST API Design, Distributed Systems, Debugging & Troubleshooting, Issue Tracking, Code Documentation
Development Practices: Git, GitHub, CI/CD, Agile/SDLC, Version Control, Collaborative Development
Backend & Databases: Flask, Session Management, MongoDB (NoSQL), SQL
Cloud: AWS, Microsoft Azure
AI & Machine Learning: Machine Learning, Generative AI, Prompt Engineering, AI API Integration, XGBoost, Random Forest, Explainable AI (SHAP), Pandas
Professional: Mentor Collaboration, Cross-Functional Teamwork, Technical Documentation, Written and Spoken English, Continuous Learning

PROJECTS

NexEstate – AI-Powered Real Estate Valuation Platform | Python, Flask, REST API, XGBoost, Random Forest
- Designed and built a production-ready Flask REST backend with session management, processing 250K+ property records with sub-45 ms inference latency and 91.2% R-squared model accuracy.
- Integrated an Explainable AI (SHAP) module and a climate-resilience scoring engine, adding new features on top of the core ML prediction service.

Financial Intelligence Engine – AI Fraud Detection & Blockchain Audit System | Python
- Built a real-time fraud detection system using behavioral analytics and anomaly-detection algorithms to flag high-risk transaction patterns.
- Designed a blockchain-backed audit framework using SHA-256 hashing with live network visualization for tamper-resistant traceability.

Jharkhand Tourist Platform – Smart India Hackathon 2025 (National Level)
- Built an end-to-end tourism discovery platform in a team, delivering a fully functional prototype under a strict deadline.

PackPilot – Buildathon 2025 (Dreamflow x FlutterFlow)
- Built and deployed a rule-based intelligent packing-list application from concept to working product.

EXPERIENCE

AI/ML Summer Research Intern | IIT Kanpur, CSE Department (Prof. Nitin Saxena) | May 2026 – Jul 2026
- Worked in a research-lab environment, developing and optimizing machine learning models through iterative experimentation.
- Translated research hypotheses into measurable, reproducible outcomes and maintained clear technical documentation for the team.

Data Analytics Job Simulation | Tata Group x Forage | Sep 2025
- Performed exploratory data analysis and risk profiling using Python and Pandas and delivered findings as a data-driven report.

Head, Placement Cell & Cybersecurity Cell | UIET, CSJM University, Kanpur | 2025 – Present
- Lead cross-functional initiatives for 200+ students, coordinating with external stakeholders and running technical workshops.
- Founded the Cybersecurity Cell and organized hands-on workshops and competitions for 100+ students in partnership with IIT Kanpur's Cybersecurity Centre.

EDUCATION

B.Tech, Computer Science Engineering | UIET, CSJM University, Kanpur | 2024 – 2028 | CGPA: 7.0/10

Senior Secondary Education | Nurture International School, Kanpur | 2022 – 2024 | Class X: 90%, Class XII: 75%

CERTIFICATIONS

- Microsoft Certified: Azure AI Apps and Agents Developer Associate (Aug 2026)
- Career Essentials in Generative AI – Microsoft & LinkedIn (Aug 2026)
- Google AI Essentials Specialization – Google x Coursera (May 2026)
- OCI 2025 Certified AI Foundations Associate – Oracle University (Sep 2025)
- Foundations of Prompt Engineering – AWS (Jul 2025)
- MongoDB Overview & Schema Design Patterns – MongoDB Inc. (Apr 2026)
- Cybersecurity Fundamentals – IBM SkillsBuild (Mar 2026)

ACHIEVEMENTS

- Bharatiya Antariksh Hackathon 2026 (ISRO): selected participant with an idea submission for a national space-technology challenge.
- Amazon ML Summer School 2026: shortlisted for the Selection Test after clearing resume and Statement of Purpose rounds.
- GeeksforGeeks 60 Days POTD Challenge: maintained a 60-day daily DSA streak.
- Hackathon participant: Smart India Hackathon 2025, HackShodh 2026, SPARK Hack 2026.
